

## Backbone Routers Project

---

Create a Single Page Application with 3 views

- \* An index or home page
- \* A view to display the list of cars
- \* A view to display the list of boats

Place a navigation bar on the top of the page with links to each of these views. When one of these menus are clicked, display the corresponding view populated with a collection.

### Join me...

Join me on YouTube for additional videos. I try to upload a new video every night on my channel.
