Backbone Events Cheat Sheet

Binding and Triggering Custom Events

```
var person = {
    walk: function(){
        this.trigger("walking", { speed: 10 });
    }
};

_.extend(person, Backbone.Events);

person.on("walking", function(e) {
    console.log(e.speed);
});

person.off("walking");
```
